October 18, 2007 – For Immediate Release

Continuation of Repairs on Miami River Bridge

MACON – The Missouri Department of Transportation's bridge crew will begin repairs on the Miami River Bridge on Route 41 in Saline and Carroll Counties as soon as weather permits. The work is a continuation of the same type of preventative maintenance repairs to the north end of the bridge that the crews began last spring.

Most of the work will take place from 7:00 a.m. until 7:00 p.m. Monday through Thursday. Crews may also work Friday through Sunday during various stages of the repair. The repairs will take several weeks to complete, and the work is weather dependent.

The bridge will be reduced to one-lane traffic during working hours, and reopened to two-lane traffic when crews are not working on the bridge. Additionally, crews will need to close the bridge to traffic during some of the repairs. The closure will take place over a weekend, and the public will be informed of the closure at least one week before.

Motorists are urged to use extreme caution in and around the work zone and choose alternate routes when possible.

For more information, contact the MoDOT District 2 Customer Service Center toll-free at 1-888-ASK-MoDOT (275-6636). The center is open Monday through Friday from 7:30 to 4:00 p.m.
